## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

## DETAILED ACTION

### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a method of driving a display device which comprises a pixel comprising at least an EL element and a transistor, wherein the EL element is placed into an emitting state when a first gate voltage is applied to a gate electrode of the transistor and wherein the EL element is placed into a non-emitting state when a second gate voltage is applied to the gate electrode of the transistor, during each of plural sub-frame periods and wherein an absolute value of the first gate voltage is not greater than an absolute value of a voltage across a drain and a source of the transistor, as recited in independent claims 1, 2, 19, 27, 28 and 45, so as to suppress the unevenness of luminance display due to the unevenness of the characteristics of TFTs or due to variations in the environmental temperature in order to perform accurate gray scale display. The remaining claims 3-18, 20-26, 29-44 and 46-52 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1 through 52.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 2821

Yamazaki et al., Patent No. 6,440,877, « Method of manufacturing an electro-optical device », which fails to disclose an absolute value of the first gate voltage being not greater than an absolute value of a voltage across a drain and a source of the transistor.
